Friday, March 13, 2020 | 8:00am – 4:00pm

Frederik Meijer Gardens & Sculpture Park | CE Credits: 7

West Michigan District Dental Society is an
ADA CERP Recognized Provider.

360° of Protection

Presented by Jackie Dorst, RDH, BS | Friday, March 13, 2020
Frederik Meijer Gardens & Sculpture Park | CE Credits: 7

Jackie Dorst speaks, writes and consults on dental instrument sterilization, infection prevention and OSHA safety. Her experience in the dental profession, business, public speaking and research contribute to her energetic seminars based on scientific information applied to clinical effectiveness and efficiency. She received her Bachelor of Science degree in Microbiology from the University of Georgia and, as an undergraduate, served as a Research Assistant in Medical Mycology. Jackie is a Dental Hygiene graduate of Clayton State University.

Jackie Dorst's credentials include the International Orthodontic Congress in Paris and the Third International Congress of Dental Technology in Yokohama, Japan. She has been a featured speaker at the American Association of Orthodontists, the American Association of Endodontists, the American Association of Oral and Maxillofacial Surgeons, the American Dental Association and RDH Under One Roof in addition to state and regional professional meetings.

Jackie is a member of the Organization for Safety, Asepsis & Prevention, OSAP, the Association for Professionals in Infection Control and Epidemiology, APIC, the National Speakers Association, and she is OSHA certified to deliver safety training courses.

Learn how to provide 360° of safety protection for the dental team and patients. Jackie Dorst's fast-paced, fun seminar reviews the CDC Infection Prevention Guidelines and OSHA safety for the dental team. She will provide attendees with innovative solutions to safety challenges along with motivating exercises to encourage the entire dental team to practice **360° of Protection!**

New products, new technologies and yes, even new protocols can save your dental practice time and money while ensuring patient and employee safety.

Jackie Dorst's **360° of Protection** seminar provides the latest information from OSHA, CDC and the Michigan Board of Dentistry. Attendees learn how to implement OSHA's GHS chemical safety labeling requirement with internet resources and cost-effective labeling. Jackie is a master of simplifying complicated OSHA paperwork for the dental team. Her fun and energetic program will inspire the entire dental team.

Emerging diseases, complex dental technology equipment, medically compromised patients and infection prevention breaches have prompted the CDC to update infection prevention standards with the *Summary of Infection Prevention Practices in Dental Settings: Basic Expectations for Safe Care*. Jackie will review the CDC's Infection Prevention Summary and provide recommendations for products and techniques to help your practice tune up your infection prevention program to meet CDC's Standards.

This course will provide the required annual OSHA safety training for your entire dental team.

Learning Objectives

- Identifying hazards associated with each GHS pictogram.
- Demonstrate correct sterile instrument packaging.
- Determine validation methods for instrument cleaning and sterilization.
- Describe protocols for DUW testing.
- List correct sequence for donning and doffing PPE.
