LOCAL PHONE DIALING CHANGES

Starting October 24, 2021, you will have to dial the area code when making local calls if you have a line with a 616, 810, 906 or 989 area code.

The change is being made to allow for a new three-digit 988 number to the National Suicide Prevention Lifeline.

Four Michigan area codes are being affected, along with dozens across the country. The area codes all have active lines with 988 in the next set of numbers.

Diagnostically Driven Dentistry: The Business of Dentistry and How it All Fits Together

Presented by Lou Graham, DDS | Friday, October 29, 2021 | 8:00am–4:00pm | Frederik Meijer Gardens & Sculpture Park | CE Credits: 7

Dr. Lou Graham is an internationally recognized lecturer extensively involved in continuing education for dental professionals. His lectures focus on incorporating current clinical advancements through "conservative dentistry." He emphasizes the same concepts he practices: dental health diagnosis, treatment plans for medically compromised patients, conservative treatment, cosmetic dentistry, and customized approaches to periodontal care, implants and laser dentistry. Dr. Graham is the founder of Catapult Education, a continuing education company whose philosophy and programs use contemporary, interactive formats to integrate time-proven conservative dentistry with 21st century materials and techniques. Dr. Graham is a published author in many leading national and international dental journals. He is a member of the American Dental Association, American Academy of Cosmetic Dentistry, Academy of General Dentistry, Chicago Dental Society, and the Illinois Dental Association.

In dentistry, superior diagnostics relates to creating more efficient methodologies to result in better decision making and ultimately a higher quality of care and long-term success. Ultimately, these diagnostics can actually lower costs for the patient by creating far more customized approaches to their dental care and equally creating the ideal treatment plans for long term success. This course will take the attendee into modern day general dentistry and demonstrate why the GP must be in control of how they integrate treatments with their specialists. Throughout the day, the business of dentistry will be presented, integrating the latest in software technologies and "actionable analytics" to demonstrate clear pathways in creating office and hygiene growth. This is a great team course and is designed with common sense approaches to drive your office forward.
